Fall Weather Safety

Know Your Risk, Take Action, Be a Force of Nature

weather.gov/safety

Fog

Driving in Fog:

- Slow down when you encounter fog
- Use your low beam headlights
- Do not change lanes or pass other vehicles unless absolutely necessary
- If you must pull off on the side of the road, turn off your lights and use your parking brake to avoid being hit by cars who may not realize you've pulled over

NWS Storm Surge Products

STORM SURGE WATCH

A Storm Surge Watch is issued when **storm surge is possible.**

Promptly follow evacuation and other instructions from local officials.

Surge Possible.

weather.gov

STORM SURGE WARNING

A Storm Surge Warning is issued when **storm surge is expected.**

Promptly follow evacuation and other instructions from local officials.

Surge Expected!

Tsunamis

Prepare for a tsunami:

- Have multiple ways to receive warnings
- Make an emergency plan, including family communication and evacuation plans
- Map out routes to safe places on high ground or inland, practice walking them
- Know your risk in harbor and your fastest route to deep water
- Put together portable disaster supply kits

Visiting the coast? Ask about local tsunami safety.

NATIONAL WEATHER SERVICE

weather.gov/safety

Tsunamis

If you experience any of these natural warning signs at the coast, a tsunami could be coming:

- Strong or long earthquake(s)
- Sudden rise or fall of the ocean
- A loud roar from the ocean

If you experience any of these, go to high ground or inland. Do not wait for official instructions.

Tsunamis

When a Tsunami Warning is issued:

- Stay out of the water
- Stay away from beaches and waterways
- Get information from local TV, radio, or online
- Go to high ground or inland if officials ask you to evacuate
